Value Creation

Accounting & Finance

COMPREHENSIVE SUPPORT

150+ Houston-based accounting personnel ensuring no service break during increased activity.

Leadership oversight, duty preparation & document processes avoid potential negligence & unlawful conduct.

Technical booking experience & complex accounting entries (ARO, DD&A, impairments) ensure reports accuracy.

Full-service asset acquisition support.

Cost Control & Cash Management

RELENTLESS COST FOCUS

Technology leverage increases cost transparency by consolidating multiple sources into single platform.

Custom dashboard creation predicts potential cost overruns and offset operator benchmarking to ensure outperformance.

CAMS structure leads to client cost reductions.

Audit & Tax

COMPLIANCE EXPERTS

GAAP conversant CPA's minimize hours spent by audit team, reducing overall fees

Experience working with auditors to avoid refilling previous audit and investor tax reports, eliminating adjustments

Proactive management avoids financial covenant compliance issues and bank reporting deadlines

Oilfield Operations

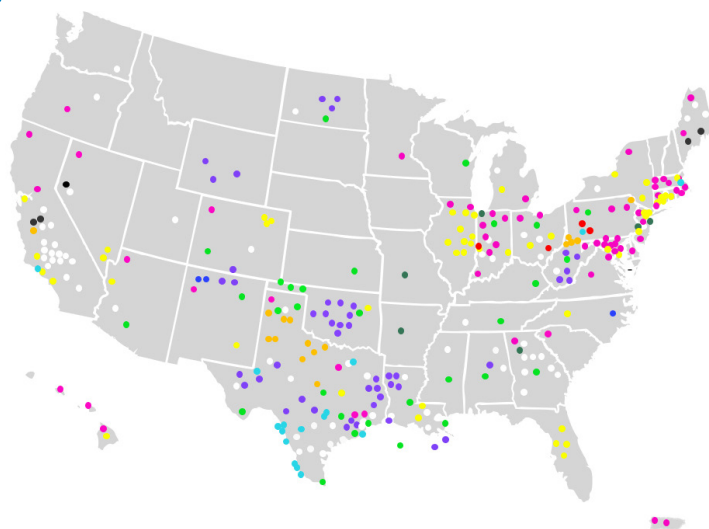

ASSET VALUE CREATION PARTNER

Experienced professionals with extensive operations knowledge serving small oil & gas start-up firms with minimal to no operating staff.

Flexible oversight and management per clients' needs.
